Q: D3.js - Partition by value when x is position I have this problem for my D3.js app. I have made a line plot, and in the x axis I have a some values with the same y value, the problem is that the problem with these values, and I want to partition them by value (example: value 1 - Red line, value 2 - Blue line, and value 3 - Green line). I would like to know if I can do this with D3.js, because the documentation doesn't exist it seems. The scale seems not to be working.

```
var horizontal_scale_x = d3.scale.linear().domain([0.3, 0.7, 0.9, 0.95, 1.0]).range([0, width]); var horizontal_axis = d3.svg.axis().scale(horizontal_scale_x).ticks(5).orient("bottom").tickFormat(function(d) { return d; }); var svg = d3.select("body").append("svg").attr("width", 500).attr("height", 300).attr("id", "svg_category").attr("style", "margin:0 auto; margin-top:50px;").append("g").attr("transform", "translate(50, 50)"); var line = d3.svg.line().x(function(d) { return horizontal_scale_x(d.valor);
```
