The URL is... Inside the download there is a text file that says "you don't need to download this file. It is already downloaded to your software registry". A: There is a 64-bit version available on Getautopluss.com. It is the same as the 32-bit version. A: The answer can be found on this Microsoft forum. The file you are looking for is `autodesk-xforce-activation-file_V1.2.0.exe`

Q: Converting Object in JSON with no commas into a Date I

have an OBJECT in my JSON that I'm retrieving from Salesforce. This object has 1 Date field. The issue is that when I retrieve it I need to get a Date as the value and not the string that comes back when I convert it to a string. So my question is how do I get the Date when I am retrieving the data? Here is an example of the JSON: { "Id": "10001", "Name": "James Taylor", "Phone": "888-555-1212", "Email": "james@gmail.com", "Street_1": "123 Main St", "Street_2": "Apt. 101", "City": "Redmond",

```
"State": "WA", "Postal_Code":  
"98101", "Date": "9/21/2013" }
```

Also here is the line that
actually returns the JSON:

```
Select Id, Name, Phone, Email,  
Street_1, Street_2, City, State,  
Postal_Code, Date from Account
```

```
LIMIT 5 OFFSET 0 A: My
```

```
suggestions: 1) Use the JSON  
format 2) Cast your value to a  
date - if it's a string try
```

```
converting it to a date. 3)
```

```
Concatenate a date/time to  
your string Full code: Select Id,  
Name, Phone, Email, Street_1,  
Street_2, City, State, Post
```

```
6d1f23a050
```
